

SERIES

1

## MICRO-FILL

The All-Fill Micro-Fill Series 1 is designed for the precision dosing of powders and granules either by volume or by weight. The servo-controlled auger and touch-screen display make the machine extremely flexible and simple to operate.

The Micro-Fill unit can be supplied free-standing, with a purpose-built work-station for laboratory/pre-production use, or with a container handling package for fully automatic productions. Multi-head configurations are also available where close auger centres are required.

### OPTIONS

- Modular horizontal auger hopper feed
- Adjustable level control
- Balance for gravimetric filling
- Independent agitator drive
- Work-station support
- PLC hardware/software for 21 CFR compatibility
- Multi-fill up to 12 heads
- Printer
- Validation Documentation

### FEATURES

- Compact bench-top design
- Fill weights from 10mg to 100g
- Variable speed servo-driven auger
- Siemens plc control
- Full colour touch-screen with recipe memory
- Stainless steel construction with 316L contact parts
- Quick-release tool-free auger and hopper removal
- Computer interface for down-loading to a PC
